#### **Resume WorkOut**

Your resume can be the first impression your potential employer will form about you. This session will focus on ways to improve your resume. What does your resume say about you?

#### **Navigating Professional Change**

Company Needs + Employee's Technical Skills + Chemistry + Timing = Successful Business Relationship. When this equation gets out of balance, a professional change is sure to happen. This session focuses on offensive and defensive strategies for navigating change.

#### **Starting Your Own Business (in 3 individual sessions)**

**Soul Searching - Part 1 of 3** – This session focuses on the necessary soul searching that should be done prior to jumping into your own business.

**Testing the Waters - Part 2 of 3** – You've done the necessary soul searching, and you are ready to "test the waters" of having your own business. This session focuses on the basics of getting your business off the ground.

**Ready for Prime Time - Part 3 of 3** – You've done the necessary soul searching and you've tested the waters, so now you are ready to take your business to the next level by bringing your business to life. At this point, you may be ready to make a serious financial commitment to showcasing your business. This last session focuses on introducing your business to the community and productive ways to grow what you have started while staying focused on generating revenue.
